

Tailgate Safety Meetings

Helping to ensure your business is running safe and efficiently.

- **Why** do I need it?

Safety meetings are an opportunity for management to communicate to employees how they can do their jobs more safely and efficiently. Safety meetings also allow employees an opportunity to relay safety and health concerns or workplace improvement ideas to their supervisors. Accidents can, and often do, result from unsafe acts or unsafe conditions, so it is important for a business to have these meetings to ensure everyone is informed appropriately.

- **What** is it?

Safety Meetings are easy to read and quick to deliver, allowing supervisors to effectively incorporate safety into their day-to-day operation without stopping production.

You can choose from a large library of meetings that range from basic topics applicable to anyone in any industry, to highly targeted and industry-specific topics.

You can also customize the meetings with your company's name and logo to reinforce to your employees your commitment to ongoing safety training and to use as an ongoing personalized safety resource. Ensure your meetings meet the needs of all your employees by choosing English, Spanish, or both!

- **What** does it cost?

Our tailgate safety meetings are available at these member discounted prices:

26 weeks of topics: \$239.00

52 weeks of topics: \$279.30

- **Where** do I start?

Log into your member portal and visit our store to purchase a tailgate safety meeting or contact your agent.
